### *An evening with art at the Owners' Reception*

Casale San Damiano

August 27<sup>th</sup> - 6,30 p.m. - 8,30 p.m.

**Matteo Nannini**  
paintings

His favourite means of expression is oil painting performed on any media.

He alternates classical solidity with pictorial/gestural liquefaction. Always interested in figuration, Matteo analyzes the individual with a substantial and inquisitive painting, at times intimate, without compromising surreal-metaphysical situations and suggestions that are more or less explicit.

**Nimrod Messeg**  
sculptures

Flowers, arabesques, shapeless pieces of metal, joined together to form poetry. As in a musical score, each of them takes on a fundamental role in the final construction of eternal figures; An apparently infinite puzzle whose starting point is not recognizable, but which makes it possible for us to admire the tangible elegance and ethereal transcendence of a complete form.
