CASALI di CASOLE  
TIMBERS TUSCANY

### *An evening with art at the Owners' Reception*

Casale "La Casa"

October 22<sup>nd</sup> - 6,00 p.m. - 8,00 p.m.

**Alessandro Reggioli**  
paintings & more

The artist moves among still lifes, architecture, elegant stuccos, Renaissance tympanums, open portals, as the artist himself states, towards the unknown. But then his gaze and his thoughts do not stop and create a very captivating series of airplanes, small sculptures. He practices gliding flight in real life, he knows very well what it means to sail suspended and free.

**Andrea Roggi**  
sculptures

The leitmotif of Andrea Roggi's works, metaphorically represented by the Tree of Life, both in its iconographic meaning and as a symbol of plant life, is depicted by taking inspiration from the natural surroundings of his atelier. As human figures integrate with the plant forms, they fuse into a seamless whole imbued with a sort of "magic realism".
