

For the Summer season 2021

In the rooms of the Castle of Casole (Siena)
a personal exhibition of the artworks by
Marco Manzella

TELL ME A STORY

Curator: Maria Francesca Sensi and Patrick Pii

from 13th June to 30th September
On Invitation only

Looking at the paintings by Marco Manzella is seeing still images in
theatre settings.

The human figures and the landscapes, finely painted with tempera
on wood, layer upon layer, have tones of light built like in wood
panels from the XVth century .

All is still, motionless: no real movement, but only frozen actions
that are going to happen. Why, when and where is not for us to
know.

In this immobility the artist accomplishes his role, giving space and
dialogue to the imagination of the admirer, fascinated by how to
build his or her own story, a tale, their most intimate novella.

it is possible to visit these works in the Tosca rooms of the Hotel on
invitation only.

Please contact us for an appointment and an aperitif on a wonderful
natural background .

If you can't, please follow the multimedia files.

Marco Manzella is a Resident Artist at the
